GOODING TAKES DUBOIS TO TASK.

Republican Candidate for Governor Answers His Challenge in Plain Terms.

SPEAKS OF CHURCH INFLUENCE.

Shows Where Dubois Stood on the Mormon Question a Year Ago-Statement of Facts.

A special to the Boise Statesman from Couer d'Alene City, Ida., says: "Hon. Frank R. Gooding, the Republican candidate for governor, opened the campaign for his party in Kootenai county last evening in the opera house. The house was packed to the doors, over 800 being present. After discussing national issues and after paying a glowing tribute to the resources of Idaho, Mr. Gooding took up the Dubois-"Mormon" question. He stated that when he stepped on the stage he had been handed a list of questions that Senator Dubois wanted him to answer so that he might know the speaker's position on the "Mormon" question. Mr. Gooding said he would try to make his position and that of the Republican party very plain. Continuing, he said: "I understand that Senator Dubois stated from this platform a few days ago that there was no law on our statute books against bigamy, polygamy or unlawful cohabitation."

The speaker then read sections of the Idaho statutes defining the crimes

of bigamy and illegal cohabitation and prescribing punishment for such of-fenses. He asked: for it or the statutes of our own Will you take Senator Dubols' word

WHAT DUBOIS SAID LAST YEAR.

The speaker stated that if the laws now on the statute books were insufficient others should be enacted. Proceeding, he said he desired to call attention to the position taken by Senar Dubols in the discussion relative to the admission of Arizona and New Mexico to statehood last year. He quoted the senator's words at that time (Feb. 5, 1903, in the United States senate) as follows: "I live among those people and so far. as I know in Idaho there has not been a polygamous marriage celebrated since that manifesto was issued, and I have yet to find a man in Idaho or anywhere else who wil say that a polygamous

else who wil say that a polygamous marriage has been celebrated anywhere since the issuance of that manifesto." "Then Senator Hale said: "Then it must follow as the years go by and as the older people disappear polygamy as practised will be practically re-

'Dubois replied; 'There is no question about it."

DUBOIS CALLED UPON TO ACT. Continuing, Mr. Gooding said: '1 wish to say, ladies and gentlemen, that there is no one in Idaho more anxious to protect the morals and fair fame of this state than myself. As I have said you, there are ample laws on our statute books for punishment of all crimes connected with sex relationship except adultery. If elected governor i shall try to see that such a law is

placed on the statute book.
"The Republican party takes the stand Dubois did little over a year ago that no polygamy exists in Idaho, and that no new marriages have been con-

If polygamous marriages have been contracted, as Dubols claims, it is his duty to file informations against the offenders and have them punished for bigamy. Mormons are as amenable to laws against bigamy and illegal cohabitation as Gentiles. Mormons may not be all angels. Some of them may and have undoubtedly committed crimes but how often do we hear of some good man or woman going wrong in our own community? I do not think one church should be held responsible for the acts of individual. for the acts of individual members

more than other churches do. QUESTION OF CHURCH INFLU-

Now we will talk about Church in fluence. In regard to any influence being used, there must be results or it don't count unless there is something to show for it. The question is whether you are going to take Dubois' statements or the official vote of the state I have here a list of the percentage of gain of the Republican party in each county in Idaho at the election two years ago over the vote of four years

Mr. Gooding then made a compariso of gains in "Mormon" counties as com-pared with those in Gentile counties showing that the gains where the Mor

mons make up a large percentage of the population were less than those in Gentle counties. He said:
"What is the matter with Kootenai county, which made a greater gain two years ago than any Mormon coun-ty? Was this caused by Mormon to-Was this caused by Mormon in-

Figures were submitted that show a gain in Kootenal county in the Repub-lican tote of 30 per cent, while in one of Idaho's strongest "Mormon" coun-

HAPPIEST MAN IN UNCLE SAM'S NAVY.

I am the happiest man in Uncle Sam's Nary, I must have get the piles from always sitting on the guns, for I have to get on them to clean them, as I am first class cooner's mate in the after turret.

could not do any work when I had the piles, my shipmates did it for me, I certainly was in a bad condition; today there is no man aboard the ship in better condition than I am, and I can certainly thank Pyramid Pile Cure for the world of Rood it has done me. I used so many different medicines and spent lots of money until I used this remedy; it is the only one of the whole lot that did me any good.

think I ever felt happier in my life, I think I ever felt happier in my life, I thought I got the real stuff at last, ske sure of a cure I used a number zet, also two hoxes of Pyramid Pills one and one-half boxes of Pyramid nent, and I still have four boxes of mid Pile Cure left, that I keep in I meet anyone that is a sufferer of I thank Pyramid Pile Cure a millimes. Julius A. Koester, U. S. Flag-Kearsarge.

ship Kearsarge.

The wonderful cures effected by this remedy are subject for remark among members of the medical profession everywhere. A little book describing the causes and cure of pilea is published by the Pyramid Iyag Co. Marshall, Mich., and we advise every sufferer to write for it. It is a singular fact that one out of every four suffers from this distressing complaint, and another peculiar feature is that it is no respecter of persons, attacking both those of high and of low degree, the laborer and the millionaire, the setub-weman and the lady of fashion. We have pleasure in recommending Pyramid Pile ture to all such, as it possesses merit, and since it is sold by all druggists generally for the low price of fifty cents a backage a prompt and speedy cure is easily within the reach of everyone.

IT IS A MATTER OF HEALTH

THERE IS NO SUBSTITUTE

ties, 90 or 95 per cent of the people there being "Mormons," the party only gained clusive, the congress to convene in

"One-half the Democratic papers in "One-half the Democratic papers in southern Idaho are not supporting Mr. Dubois in his issue. The principal Democratic paper of the north is not supporting him. I could name hundreds of good loyal Democrats all over the state who are not supporting him. to some of whom Idaho owes much. "Dubois is only a politician in the sense that he has no other occupation. "He came to Idaho holding a federal position and has held office ever since.

position and has held office ever since He is now seeking to disrupt the Democratic and Republican parties and form a new party on the Mormon question in the hope of being returned to the United States senate."

Mr. Gooding's statements on the 'Mormon' question were received with loud and continued applause. After the meeting a large number of those who had heard him said that his statements n regard to the "Mormon" Issue constituted a complete refutation of all Dubois' claims

DR. BOWER HOME.

Salt Lake Physician Returns From a Trip to Europe.

Dr. A. S. Bower has returned from his three months' European trip. He visited all the scenes of special interest to the tourist, and says that what impressed him most was the cleanliness of European cities, and the economical administration of public affairs. Berlin is a model of cleanliness, and even Milan is fairly clean. No rubbish is permitted in public thoroughfares, and even in the country districts perfect order is evident. Farm work is more thorough than in this country. Vast thorough than in this country. Vast tracts of land are given over to artiicial forests, some having been planted 300 or 400 years ago. Public school teachers in Germany are well pald. many receiving as high as \$3,000 a year, and are pensioned when old or disabled. School discipline is strict. Dr. Bower's wife and two sons accompanied him abroad, and are remaining in Hanover where the boys are attending school. Mrs. Bower will remain through the vinter, and then return to Salt Lake.

Some Seasonable Advice.

It may be a piece of superfluous adurge people at this season of the year to lay in a supply of Chamber-lain's Cough Remedy, It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the rem-edy at hand. This remedy is so wideknown and so altogether good that o one should hesitate about buying in preference to any other. It is for sale by all druggists.

INSPECTED HOSPITAL.

First Presidency Paid a Visit to New L. D. S. Institution.

President Joseph F. Smith. President Anton H. Lund and President John R. Winder of the First Presidency, accompanied by Bishops Robert T. Burton, O. P. Miller and O. F. Whitney, yesterday paid a visit of inspection to the new Groves' Latter-day Saints' Hospital on C street between Eighth and Ninth

The party went through all the rooms of the new hospital, and examined care-fully the furnishings being moved in, as well as the construction work. At the conclusion of the inspection President Smith said: "I am very much pleased with the work so far as it has gone. The equipment seems as complete as could be desired. Not long ago a gentleman who visited Salt Lake on his way around the world. Dr. Mars her way around the world-Dr. Mayo, by name-who had charge of the largest private hospital in the United States, located at Rochester, N. Y., said, after looking over the hospital, that in its equipment and conveniences, it sur-passed anything he had ever seen." The work of grading the grounds is now in progress, while the tiling and

inoleum carpets are being laid on the second, third and fourth floors, which ire to be opened upon the return o Dr. Richards, the head of the medical staff, from the east.

BOWERS RE-ARRESTED.

Man Wanted in Iowa is Once More Behind the Bars.

Released under a writ of habeas corpus and re-arrested before he got outside of the city and county building, is the experience of William Bowers, who is wanted in Iowa for burglary. Bowers and a companion hired some negroes to rob chicken coops at Mt. Pleasant, Ia. and they shipped the spoils out as fast as they were supplied. When arraigned for the crime he pleaded guilty, and was released on his own recognizance awaiting time for sentence. During this time he left Iowa and came to this city, where he was arrested and held for the Iowa authorities. Habeas corpus proceedings were instituted in his behalf by Attorney James F. Smith. Judge Lewis yesterday afternoon de-cided that there had been no citation issued for Bowers to appear before the court for sentence, and no bench warrant had been isued for him, hence he was not a fugitive from justice. He was accordingly discharged. Chief of Police Lynch had wired to lawo yes terday whether or not a bench war-rant had been issued, and the reply came just a few minutes after Bowers release, that such a warrant had been issued. Chief Lynch and Sheriff Campbell of Mt. Pleasant, Ia., met Bowers at the north entrance of the city and county building just as he was leaving, and placed him under arrest. Th prisoner protested against his arrest, but to no avail. He was landed in the city jail and it is thought that the of-ficials will have no trouble in holding him this time and returning him to

PROMINENT MEN WILL BE PRESENT

Great Session of Transmississippi Commercial Congress the Last Week in October.

PREST. ROOSEVELT IS INVITED.

Speakers Will Include President Diaz, John Hays Hammond and Prof. F. H. Newell.

The Fifteenth session of the Transmississippi Commercial congress will meet at St. Louis, October 25 to 29, in-Convention hall, on the world's fair DUBOIS AS A FARTY DISTURBER. ground, Tuesday at 10 a. m.

This organization has been a great factor in the commercial advancement of the western states and territories, being a systematic movement to influence national legislation, wherever legislation was required in the deepening and improvement of harbors, the equalization of transportation rates in Interstate commerce, the reclamation of the semi-arid regions and the conriruction of public works, the encouragement of reciprocity in the commercai relations between this country and Canada, Mexico, the Central and South American republics; the con-struction of the Isthmian canal, con-struction of the Pacific cable, improved consular service, fostering of maritime trade, in fact every plan for the bet-terment of commercial conditions in the Transmississippi region received at its hands cordial endorsement and effective legislative aid. Among its many achievements for the past 15 years may be mentioned the passage of the irrigation act, the creating of a department of commerce, deep water for Galveston, Houston, New Orleans and improved harbor facilities for other large cities in the Mississippi valley, the construction of irrigation reservoirs and canals, more equable transportation rates on railroads, and numerous other enter-prises have been fostered in various parts of the western country, where the reputation of the congress stands high for its unselfish devotion to public interest. It is for this reason that annual sessions of the congress are always well attended, and that its delegates comprise the vesy best and most influential men from the Transmississippi country.

PROMINENT SPEAKERS. The coming session at St. Louis will be no exception to this rule. The indications are that there will be upwards of 2,000 delegates in attendance. The congress will present a program in which the whole country will take deep interest, as much because of the toples to be discussed as from the high character of the men who will participate in the program. Among these who are expected to be present is President Diaz of Mexico, who will make his first tour of the United States in the interest of a closer commercial union between the two repub-lics. President Roosevelt has been invited and may attend, and in the event of his being present, James R. Garfield of the department of commerce, will be present as his personal representative. John Hays Hammond, the eminent mining engineer, has been vited to address the congress upon the necessity of governmental super vision of the mining industry and the creation of a department of mines and nining with its head a member of the cabinet. Among other speakers may be mentioned Charles Jerome Bonaparte, president of the national municipal reform association. Mr. F. E. Newell, chief of the reclamation service of the department of the interior; Mr. Gifford Pinchot, chief of the bueau of forestry and the most distinguished expert in forestry in America, and although a rich man devoting his entire time to this pursuit, Mr. W. E. Curtis, dean of the Washington correspondents will discuss "Irrigation in

"THE AMERICAN BOY."

Hon. Charles Arthur Carlisle will de-liver a paper under the title of "The American Boy" or the process by which the American boy may be transplanted from the city to the farm. The Lewis and Clark centennial exposition and oriental fair management will send the very best speaker obtainable to discuss expositions and their influence upon the country, advance-ment. Hon. F. J. Hagenbarth, presi-dent of the American Live Stock asso-

FEEDING A DOCTOR.

His Body Changed By Change in Food.

A convinting bit of testimony to show what a simple change of food can sometimes do to end apparently incurable disease is told in the following article a Chicago physician.

"The case is my own. I had been suffering for more than 25 years with nervous dyspepsia, insomnia, occasional kidney trouble, and general disturbance of my whole system. My appetite was affected and so I lost weight and strength, but most serious of all was the gradual failure of my memory, proving that my brain and nerves were not getting the proper food any more than the rest of my body.
"Three times I made the journey to

Carlsbad, and spent a fortune consulting famous physicians and specialists in this country and Europe but never got any permanent results. All the medicines known to selence failed to give me even temporary relief n spite of the fact that I was always exceedingly careful in my diet. I was on the verge of despair and never looked for-ward to being well again.

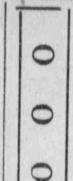

"One day about two years ago I was staying at a hotel in Minneapolis accompanied by a famous European physician, Dr. Werner, of Berlin, and there we noticed a new food on fac menu called Grape-Nuts. Having Vitle desire to eat I ordered some just to see what it looked like and then was persuaded to try it. "What I experienced was not short of

wonderful.

"Not only did the new food taste so good I relished it, but for the first time in many years I felt entirely free from the terrible pressure on the stomach which I had always suffered even after the lightest meal. On my return to Chicago my very first act was to order Grape-Nuts sent to my home where the whole family relish it so they use it daily with out any urging, and we ex-

Pect to do so as long as we live.

"As the result only of this change of food to Grape-Nuts the awful disease which I suffered with for more than 20 years disappeared entirely in about three weeks, I have regained my health, strength and vigor and about 22 pounds in weight. All of this is due only to the thoroughly nourishing and completely digestable character of this food-Grape-Nuts." Name given by Postum Co., Battle Creek, Mich. Get the famous little book, "The Road to Wellville," in each package.

You'll Be Lucky If You Lay in Your Winter's Supply

Husler's Flour

Now. Why?

ciation will discuss the range interests before the congress. "Read Improve-ment" will be considered by the Hon. Martin Dodge, director of road inquiries, United States department of agriculture. Alexander H. Nevell, vice president of the National Business league will address the congress upon the subject: "A single six-year presi dential term." A number of other not-able men have signified their intention to be present and participate in the deliberations of the congress.

DEATH OF SAM LEVY.

Well Known Cigar Manufacturer Dies From Attack of Diabetes.

Another of Salt Lake's old time citizens has gone to his rest. Samuel Levy. who has resided here since 1872, died at his home, 152 west Third South, at 7:15 last evening of diabetes, after an illness which had lasted two years.

Mr. Levy was born in London, April 16, 1841, and came to this country when about 12 years of age. After living for a time in Council Bluffs, Ia., where he was a member of the firm of Paregoy & Levy, he came to Salt Lake, where he engaged in the manufacturing and handling of cigars. Between the years 1880 and 1890 he accumulated, it is said, a fortune of between \$200,000 and \$300,000. at one time employing as high as 120

Unfortunate investments and bushness reverses swept away his fortune, although he continued operations in a small way at 171 south Main street, his son Joe Levy having conducted the business during his father's last illness The deceased was a good citizen, and was highly respected. He was promi-

was nighty respected. He was prominent in the movements which resulted in the up-building of Salt Lake.

The first suit for damages ever brought against Salt Lake City was instituted by Mr. Levy in the year 1880. It grew out of an overflow of water from an intravious dish which which from an irrigation ditch, which ran in-to the cellar of his home on Third South street, ruining \$16,000 worth of Havana leaf tobacco, which was stored there. The case was tried twice in the district court, and twice appealed to the state supreme court, and the final de-cision rendered in 1887 giving him \$4,900 damages.

The deceased leaves surviving him a wife and six children. Arrangements for the funeral have not yet been made
